

Logo Guidelines

Logo

Our logo must be visible on every communication we create. The logo has been uniquely designed, carefully considering the size and relationship between the logo icon and the logotype. The logo should never be recreated or modified. Always use the original artwork supplied.

Social Media Logo

The square version of the Mental Health First Aid Ireland logo can only be used as a thumbnail on digital and social media.

Exclusion Zone

The exclusion zone is an invisible barrier around the logotype. No other elements should enter the exclusion zone at any time. Please follow the exclusion zone shown above.

Minimum Size

The minimum size for reproduction of the logotype is 10mm high in print and 60 pixels high on screen. This ensures legibility at smaller sizes.

Colour Reproduction

The Mental Health First Aid Ireland logo should be reproduced in full colour (or 3 colours) out of white where possible. The logo can also appear white out of the MHFA magenta (0/95/20/0) background (preferred) or on the MHFA green (50/0/99/0) background. The logo is always white out when applied on a dark background. Please refer to the colour palette on the right for our brand colour values. Where colour is unavailable, 80% black (k) or 40% black (k) be used instead of the MHFA magenta or green.
