PLEASE NOTE: Scale and position as shown are approximate. Please ensure there are no spelling mistakes in the artwork and fully check the specified sizes, colours and positions. Once approved, we cannot guarantee any post-approval amendments and we cannot be held responsible for errors that are not picked up by yourself. Pantones and thread colours used are from universal swatch books, however the appearances may differ onscreen. Colours shown are approximate and as such they may vary on the finished product. Specific pantones that are requested for a digital decoration method will be printed as the closest CMYK representation. In some cases, our transfers may require a garment-coloured keyline around the edges, however this is subject to design. This will be matched as closely as possible to the item colour but may not be exact. Artwork may need to be altered at production stage to meet the requirements of the decoration process and to compensate for applying to fabric. For example, fine lines thickened, spaces increased and small text or registration marks enlarged or removed. Any changes made will be as minimal as possible to best retain the appearance of the original design. **Any fine elements in the design may lose detail on the final product.**
